

§ 98.36

9 CFR Ch. I (1–1–08 Edition)

banned and the ban effectively enforced in the whole region; and

(3) Semen originating in regions other than Australia and New Zealand is to be transferred to females in a flock that is listed in the Scrapie National Database as part of the Scrapie Program in the United States. Imported semen may be further distributed to any other listed flock with written notification to the APHIS Veterinary Services area office.

(f) All shipping containers carrying animal semen for importation into the United States must be sealed with an official seal of the national veterinary service of the region of origin. The health certificate must show the seal number on the shipping container. The semen must remain in the sealed container until arrival in the United

States and, at the U.S. port of entry, an inspector determines that either:

(1) The seal numbers on the health certificate and shipping container match; or

(2) The seal numbers on the health certificate and shipping container do not match, but an APHIS representative at the port of entry is satisfied that the shipping container contains the semen described on the health certificate, import permit, declaration, and any other accompanying documents.
